

SR-2833K1

This is a RF Wireless Push Remote,can be wall mounted, or sticked on wall easily by 3M glue.

Remote

Receiver

Technical drawing of a square box. The drawing shows a top-down view of a square with a smaller square inside it, representing a recessed area. The outer square has a side length of 86.0 cm, indicated by dimension lines on the left and bottom. The inner square is slightly smaller, with a side length of 76.0 cm, indicated by dimension lines on the left and bottom of the inner square.

The diagram illustrates the connection of multiple SR-1009FA LED controllers to a power supply and LED strips. A power supply (12-36VDC) is connected to the controllers. The controllers are connected in parallel to the LED strips (110V-230VAC). The diagram shows three controllers, each labeled "SR-1009FA LED CONTROLLER", connected to a common power supply and a common LED strip. The controllers are connected to the power supply via a 4x5A fuse. The LED strips are connected to the controllers via a 4x5A fuse. The diagram also shows the connection of the power supply to the LED strips via a 110V-230VAC connection.

Mounting

The key part of this controller is a universal, extremely standard switch element that can be integrated in numerous frames by different manufactures as below list:

BEKER	S1, B1, B3, B7 glass
GIRA	Standard55, E2, Event, Esprit
JUNG	A500, Aplus
MERTEN	M-smart, M-Arc, M-Plan

Operation

1. Pairing with remote: connect well receiver, press learning key on receiver, then immediately push I or O, the led will flash, means well paired. One remote can pair with endless of receivers, to control in sync.
2. Short press I for ON, long press for turn Up brightness. short press O for OFF, long press for turn Down brightness.
3. If you want delete the receiver's learning data, just long press for 5 seconds the learning key on receiver, the receiver will be deleted the learning, be set as factory defaults.

Safety & Warnings

- 1) The product shall be installed and serviced by a qualified person.
- 2) IP20. Please avoid the sun and rain. When installed outdoors, please ensure it is mounted in a water proof enclosure.
- 3) Always be sure to mount this unit in an area with proper ventilation to avoid overheating.
- 4) Please check if the output voltage of any LED power supplies used comply with the working voltage of the product.
- 5) Never connect any cables while power is on and always assure correct connections to avoid short circuits before switching on.
- 6) Please ensure that the cable is secured tightly in the connector
- 7) For update information please consult your supplier.

Warranty Agreement

- 1) We provide lifelong technical assistance with this product:
 - 3-year warranty. We print date on every products, for example :1125 means year 2011, week 25. The warranty is for free repair or replacement and covers manufacturing faults only.
 - For faults beyond the 3-year warranty we reserve the right to charge for time and parts.
- 2) Limited Warrenty
 - Any defects caused by wrong operation.
 - Any damages caused by unauthorized removal, maintenance, modifying, incorrect connection and replacement of chips.
 - Any damages due to transportation, vibration etc. after purchase.
 - Any damages caused by earthquake, fire, lightning, pollution and abnormal voltage.
 - Any damages caused by negligence, inappropriate storing at high temperatures and humidity or near harmful chemicals.
 - Product has been updated
- 3) Repair or replacement as provided under this warranty is the exclusive remedy to the customer.
